Very Good

Software Developer with a strong background in finance and banking. Hands-on development experience in .Net Development, JavaScript and SQL among others. Proficient in C# and a skilled self-earner with individual and collaborative project experience, excited to hit the ground running.

Projects

NovelHovel - An asp.net core MVC web application that allows users to keep track and add books to their library using ajax, find and create online book clubs and chat and discuss their favorite books!

Lites And Bites - An asp.net core MVC web application that allows users to create a profile filling out their favorite type of bars, restaurants and events. They are then recommended events, bars and restaurants in their area, these recommendations are crowd sourced by the local community and other people who have gone.

Trash Collector - An ASP.Net web application using entity framework and MVC 5 for an online trash pickup using code first migrations. Schedule, cancel, sign up for your trash pickup needs.

Movie Library - A REST web API in ASP.NET which is connected to a jQuery front end that allows users to add, delete, edit movies and fetch those movies in the database asynchronously.

See them on my github - github.com/cfirgens

Education

2019-06 -
2019-09

DevCodeCamp - Milwaukee, WI

devCodeCamp is a fully immersive full stack software development boot camp specializing in HTML/CSS, JavaScript, SQL, Git/Github, C# and ASP.NET. Created multiple projects during a three month period culminating in a group web application and an individual web application.
